Speaker Chad Knutson, Secure Banking Solutions - Senior Information Security Consultant and serves as VP of Research and Development for SBS. (CISSP) (CISA) (CRISC)

Cyber criminals are targeting the financial accounts of owners and employees at small and medium sized businesses, resulting in significant business disruption and substantial monetary losses due to fraudulent transfers from these accounts. Often these funds may not be recovered. Learn steps you can take to prevent being the next victim of these relentless cyber criminals.
This training program will cover:

- The need for and preservation of confidentiality
- Creation and use of strong passwords
- Physical security
- Incident reports
- Virus detection and prevention
- Importance and meaning of access control
